### Administration of Project: Switzerland Ohio Local School District (SOLSD)

Project Name	<u>SOLSD Tele-health 2 Broadband</u>	Response Deadline	<u>12:00 pm</u> local time
Project Location	<u>SOLSD Properties (Various)</u>	Project Number	<u>N/A</u>
City / County	<u>Monroe County</u>	Project Manager	<u>Tess Hill</u>
Owner	<u>Switzerland Ohio Local School District</u>	Contracting Authority	<u>SOLSD</u>
Delivery Method	<u>General Contracting</u>	Prevailing Wages	<u>State</u>
No. of paper copies requested (stapled, not bound)	<u>3</u>	No. of electronic copies requested (PDF)	<u>1</u>

Submit the requested number of Statements of Qualifications (Form F110-330) directly to **Tess Hill, Technology Coordinator at Switzerland Ohio Local School District, 304 Mill St. Woodsfield, OH 43793**. See Section I of this RFQ for additional submittal instructions.

Submit all questions regarding this RFQ in writing to Tess Hill at [tess.hill@omeresanet](mailto:tess.hill@omeresanet) with the Project Name included in the subject line (no phone calls please). Questions will be answered and posted to the RFQ page on the Switzerland Ohio Local School District website at <https://www.switzerlandohschools.com/departments/technology-11/> on a regular basis until one week before the response deadline. The name of the party submitting a question will not be included on the Q&A document.

---

**Project Overview** (This information will be used by each applicant to populate the Relevant Project Experience Matrix in Section F of Form F110-330)

#### A. Project Description

As identified in the Coverage Area Map (Attachment 1), the Switzerland Local School District has identified five (5) priority project areas where the provision of wireless broadband services is the focus of this Request for Qualifications. The network is expected to provide a strong signal (defined as 100 Mbps download/10 Mbps upload) to as many premises in the coverage areas as possible, with service being the inside of buildings within the areas.

The objective of the wireless project is to install the infrastructure necessary, which might include construction of fiber optics and conduit and/or poles to mount wireless facilities, thereby providing internet access to business and consumer class wireless devices.

The District seeks to make available broadband services—defined as no less than 25 Mbps download/3 Mbps upload—to as many premises as possible. The network must have the ability to provide access to all premises in the coverage areas, although not all residents or businesses may choose to connect (estimate for the expected service loads is less than 300 users at any one location). There may be those premises that are adjacent to the established coverage area that request inclusion on the network. These premises may be considered in the event an equitable agreement is made with the ISP for connection and service funded outside the ARC grant. The District does not intend to enter the broadband business as a competitive service provider.

- The network should be expandable in a manner as efficient and effective as possible to increase capacity and to accommodate advances in technology as may reasonably be expected to become available over the life of the network (at least 20 years).
- The network and its construction must adhere to all current and generally accepted technical standards, building codes, construction practices, and other regulations, specifications, and standards as may apply in the broadband networking industry. Also, all federal, state, and local laws, regulations, and codes applicable to the network, its construction, and its operation and services must be observed.
- The network will likely connect to the Districts' points of presence located at each location and be fully compatible therewith. This does not rule out that the ISP selected as the operator may have its own backhaul capability independent of the District's network.
- The network must provide high-speed data connection to the internet as well as additional services (at subscriber option and based upon ISP product offering outside of the ARC grant).

## Request for Qualifications (Architect / Engineer) continued

- The network is not expected to provide traditional Cable TV service although the system must be fully and robustly capable of accommodating current-state Internet Protocol Television (IPTV) and other internet-based video services, including interactive video services.
- Where there are technical or architectural design alternatives, and where there are multiple types, brands, or models of equipment, the design consultant will be expected to identify all options and present to the District a reliable and understandable explanation of each, along with an explanation of tradeoffs in terms of functions, features, costs, and other pros and cons. There will likely be coordination with the partner ISP provider on specific aspects of the design, however the Engineering Design Firm will be tasked with ensuring that choices related to those details are not detrimental to future adaptation or use by other ISPs.

The anticipated project delivery method for this project is General Contracting. State Prevailing Wage requirements apply to this project.

### B. Scope of Services

The deliverable for this effort will be a complete program, preliminary design concepts and project cost projections inclusive of construction and FF&E. This effort should be led by an IT expert portion of the project team. Upon the District's acceptance of program, preliminary design concepts and project cost estimates, the A/E will proceed with Schematic Design, Design Development and Construction Documents. The A/E will also be required to assist the District in procuring FF&E via bidding or state term schedule pricing.

The Criteria Design Firm shall begin work within thirty (30) days of execution of the signed contract with the District. As part of their proposals, all submitters shall include a comprehensive schedule of project events and deliverables along with delivery dates for each, such proposed schedules to be among material criteria used to evaluate the proposals. The Engineering Design Firm shall be expected to adhere to its proposed schedule.

Interested A/E firms are required to submit the Commitment to Participate in the EDGE Business Assistance Program form in its Statement of Qualifications (Form F110-330) submitted in response to the RFQ, to indicate its intent to contract with and use EDGE-certified Business Enterprise(s), as a part of the A/E's team. The Intent to Contract and to Perform and / or waiver request letter and Demonstration of Good Faith Effort form(s) with complete documentation must be attached to the A/E's Technical Proposal. Both forms can be accessed via the OFCC website at <https://ofcc.ohio.gov>. The Intent to Contract and to Perform form is again required at the Fee Proposal stage. participate in the Encouraging Growth, Diversity & Equity (EDGE) Program as required by statute and the Agreement.

For purposes of completing the Relevant Project Experience Matrix in Section F of the Statement of Qualifications (Form F110-330), below is a list of relevant scope of work requirements for this RFQ.

- (1) Broadband Network Planning & Design
- (2) Rural setting IT Services Planning & Design Context
- (3) Technology Equipment Installation Competitive Bidding Experience / Procurement
- (4) Public School District Capital Project Design & Bidding Experience
- (5) Public School District Capital Project Construction Administration Experience
- (6) Working with District staff and area stakeholders to:
  - a) recommend network architecture and technology system design, and recommendation on system monitoring, maintenance, and upkeep solutions,
  - b) identifying permitting, equipment, and licensing requirements,
  - c) identification of possible Internet Service providers,
  - d) develop network testing procedures,
  - e) prepare detailed 50% project design schematics and project budgets, (6) prepare and recommend award of the installation bid package,
  - f) perform construction quality assurance/quality control,
  - g) review and recommend contractor pay requests, and
  - h) any other functions that may be needed to ensure successful construction and operation of a fiber optic broadband network.
- (7) During the construction period, provide not less than 8 hours (excluding travel time) on-site construction administration services each week, including:
  - a) attendance at progress meetings,
  - b) a written field report of each site visit,
  - c) on-site representation comprised of the A/E and its consultant staff involved in the primary design of the project, all having relevant and appropriate types of construction administration experience.

### C. Other Terms and Conditions

- (1) Any additions or deletions to the Work shall be only by written change order executed by the District and Engineering Design Firm. Scope changes may require prior review and approval by USDA/RUS before execution.
- (2) The District reserves the right to amend the Engineering Design Firm's form conditions and/or terms used in its agreement(s).

## Request for Qualifications (Architect / Engineer) continued

Broadband Committee. The District reserves the right to reject any and all proposals in whole or in part, and to waive irregularities and informalities, at its sole discretion and to the extent permitted by law, if and when it is deemed to be in the best interest of the District.

### I. Submittal Instructions

Firms are required to submit the current version of Statement of Qualifications (Form F110-330) available via the OFCC website at <http://ofcc.ohio.gov>.

Electronic submittals should be combined into one PDF file named with the project number listed on the RFQ and your firm's name. Use the "print" feature of Adobe Acrobat or similar software for creating a PDF rather than using a scanner. If possible, please reduce the file size of the PDF. In Acrobat, go to Advanced, then PDF Optimizer. Also, please label the CD or DVD and the sleeve with the project number and firm name if applicable.

Paper copies of the Statement of Qualifications, if requested, should be stapled only. Do not use special bindings or coverings of any type. Cover letters and transmittals are not necessary.

Facsimile copies of the Statement of Qualifications will not be accepted.

Firms are requested to identify professional registrations, memberships and credentials including: LEED GA, LEED AP, LEED AP+, CCCA, CCM, CCS, CDT, CPE, DBIA, and any other appropriate design and construction industry credentials. Identify that information on the resume page for individual in Block 22, Section E of the F110-330 form.

# Architect/Engineer Selection Rating Form

## State of Ohio Standard Forms and Documents

Project Name Switzerland Tele-health 2 Broadband Proposer Firm \_\_\_\_\_  
 Project Number N/A City, State, Zip \_\_\_\_\_

Selection Criteria		Value	Score
<b>1. Primary Firm Location, Workload and Size (Maximum 10 points)</b>			
a. Proximity of firm to project site	Less than 100 miles	5	
	100 miles to 200 miles	3	
	More than 200 miles	1	
b. Amount of fees awarded by Contracting Authority in previous 24 months	Less than \$50,000	2	
	\$50,000 to \$100,000	1	
	More than \$100,000	0	
c. Number of licensed professionals	Less than 5 professionals	1	Max = 3
	5 to 10 professionals	3	
	More than 10 than professionals	3	
<b>2. Primary Firm Qualifications (Maximum 30 points)</b>			
a. Project management lead	Experience / ability of project manager to manage scope / budget / schedule / quality	0 - 10	Max = 20
b. Project design lead	Experience / creativity of project designer to achieve owner's vision and requirements	0 - 10	
c. Technical staff	Experience / ability of technical staff to create fully coordinated construction documents	0 - 5	
d. Construction administration staff	Experience / ability of field representative to identify and solve issues during construction	0 - 5	
<b>3. Key Consultant Qualifications (Maximum 20 points)</b>			
a. Key discipline leads	Experience / ability of key consultants to perform effectively and collaboratively	0 - 15	
b. Proposed EDGE-certified Consultant participation*	One additional point for every 2 percent increase in professional services over the advertised EDGE participation goal	0 - 5	
<b>4. Overall Team Qualifications (Maximum 10 points)</b>			
a. Previous team collaboration	Less than 3 sample projects	1	Max = 3
	3 to 6 sample projects	2	
	More than 6 sample projects	3	
b. Team experience with high speed high bandwidth wireless design concepts	Registered projects	1	Max = 2
	Certified projects	2	
c. Experience in RF systems design, integration, testing, debugging analysis	Training and knowledge	1	Max = 3
	Direct project experience	3	
d. Team organization	Clarity of responsibility / communication demonstrated by table of organization	0 - 2	
<b>5. Overall Team Experience (Maximum 30 points)</b>			
a. Previous team performance	Past performance as indicated by evaluations and letters of reference	0 - 10	
b. Experience with similar projects / delivery methods	Less than 3 projects	0 - 3	
	3 to 6 projects	4 - 6	
	More than 6 projects	7 - 10	
c. Budget and schedule management	Performance in completing projects within original construction budget and schedule	0 - 5	
d. Knowledge of Ohio Capital Improvements process	Less than 6 projects	0 - 1	
	6 to 9 projects	2 - 3	
	More than 9 projects	4 - 5	
* Must be comprised of professional design services consulting firm(s) and NOT the primary firm		<b>Subtotal</b>
